-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 15 July 2003.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**Disposition of Claims**

- 4) ☒ Claim(s) 1-20 is/are pending in the application.

***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Deerkowski (USPN 3,117,635) in view of Wheeler et al. (USPN 6,158,923).

In reference to claims 1-4, Deerkowski discloses a post driving apparatus comprising: a chassis (24) towed behind a vehicle and having a longitudinal axis; a frame (26) carried by the chassis (24), the frame (26) including an upper support member (94) having an axis of elongation substantially perpendicular to said longitudinal axis of the chassis (24); a post driving assembly (140) suspended from said upper support member (94) for reversible travel therealong (column 6, lines 14-40) so as to laterally position the post driving assembly (140); the post driving assembly is continuously driven during placement of the post, wherein continuously driven is defined by the uninterrupted cycle of ramming the post into the ground. Deerkowski does not disclose the use of a post magazine. Wheeler et al. teaches a post driving apparatus including a frame supported on a chassis (10), the chassis being towed behind a vehicle (12); whereby a post magazine (30) indexingly feeds a post (6) from the post magazine to a post driving assembly (66). It would have been obvious to one having ordinary skill in the art at the time of the invention to modify the post driving apparatus of Deerkowski to include the post indexing magazine of Wheeler et al. for the purpose of feeding post to the post driving

assembly, thereby reducing the amount of labor required to install the post (Wheeler et al.-column 1 lines 36-39).

***Allowable Subject Matter***

3. Claim 17-20 are allowed.
4. Claims 5-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: The art of record considered as a whole, alone or in combination, neither anticipates nor renders obvious a post driving apparatus comprising a chassis displaceable about a driving pivot so as to shift weight from the chassis to a driving assembly to thereby complete the drive of a post retained by a post driver.

***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Refer to attachment for notice of references cited and recommended for consideration based on their disclosure of limitations of the claimed invention.
